KD-LINE WOOD-CLAD WINDOWS AND DOORS

“WHERE the DURABILITY OF ALUMINUM MEETS THE BEAUTY OF WOOD”

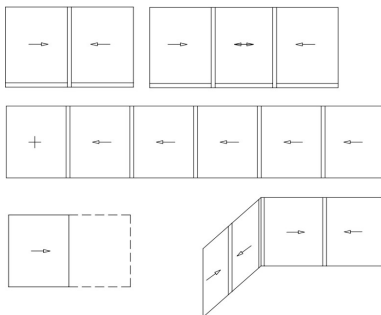

KD SLIDING DOORS

Our WOOD-CLAD sliding and lift & slide doors shine with modern, minimal lines, high-end German ROTO or SIGENIA hardware as well as multipoint locks. The doors are available with a low sill that allows for seamless transitions between the interior and exterior to round off the package.

CONFIGURATIONS

Ask for certified products

Windows tested in NCFL and QAI

Thermal tests and simulation according to NFRC and AAMA

Windows tested in high-velocity hurricane zones (HVHZ)

KD PICTURE & COMBINATION WINDOWS

Our Picture windows are available in a wide variety of shapes and sizes to fit your projects every need. From large, glazed picture windows to arched structures finished with beautiful simulated divided lites (SDLs), our picture window system can accommodate any architectural need. Structural reinforcements allow for massive glass sizes as well as longevity and safety. Available with triple glazing, our picture windows are the perfect choice for anyone that wants to maximize glazed areas without having to sacrifice energy efficiency.

KD SWING WINDOWS (CASEMENT + TILT & TURN)

Our single and double hung units offer minimalist sightlines and radiate colonial charm wherever they are placed. The high-tech, reinforced profiles come standard with a tilt-in function to make cleaning and egress a breeze with just the push of a button. If equipped with simulated divided lites (SDLs) these units truly shine with traditional charm while allowing a home to meet or even exceed modern energy efficiency and insulation standards.

GLASS OPTIONS

All our windows come well equipped with American standard all tempered 1" Low-E IGU which excels in both thermal efficiency and basic sound insulation. To accommodate every client's needs and architectural requirements, we also offer a wide array of triple pane, laminated and decorative glass options. The customization options are almost endless.

HARDWARE

Our KD-Line wood-clad windows utilize only the highest end of fittings and hardware from trusted brands such as SIGENIA, MACO and ROTO. For typical American style applications such as crank out casements and single/double hung applications we rely on Australia Doric and America CMECH hardware for maximum reliability and a high-quality tactile feel.

FINISHING OPTIONS

With the entire RAL powder coating palate at your disposal, the exterior finishing options are virtually endless. You pick the color you like and we will match it. On the interior cladding, our clients can choose from either standard Thailand rubber oak and American Red oak which both can be finished in any stain, paint or varnish of their liking to achieve the perfect aesthetic right in the factory. Below are just some samples of what our standard Red Oak can look like in various stained finishes.
