

BB-LINE 82

More possibilities

Features:

The heat transfer coefficient
U Factor from: 0.15 Btu/hft²F

Max glazing unit:
2 1/8 in.

System depth:
3 3/16 in.

SHGC: 0.14 - 0.38

Vt: 0.27 - 0.58

- system depth 3 3/16 in.
- 6 chamber system
- 2 sealing lines
- modern design and advanced technological solutions
- available in different colors
- steel reinforcements inside frame and sash
- keeps bolted to steel reinforcement
- burglary resistance in RC1n class as standard
- possible RC2 class
- excellent price-quality ratio
